OKIFAX *4500*

Digital LED Plain Paper

When you need a fast reliable fax machine that combines high quality with high performance - there's no better solution than the **OKIFAX** *4500.*

Excellent as a small or home office fax, the **OKIFAX** *4500's* built-in 14.4k modem and fast, 8 pages-per-minute Digital LED engine means it can handle the most demanding requirements.

All the features you need

First and foremost, OKIFAX *4500* is fast – capable of sending a full A4 page in less than 6 seconds and of printing 8 crisp, clear pages of text in just a minute. But it has many other features to help save time and effort. Advanced dialling features include 10 one-touch numbers, 70 speed dials and 5 groups – so it's quick and easy to call frequently used numbers, and you have less risk of misdialling. OKIFAX *4500* also has eight confidential mailboxes for private messages for individuals or departments.

Dual access operation allows you to send faxes and receive incoming messages simultaneously. And you can save even more time with the instant dial feature by transmitting a multi-page document as soon as a connection is made – with no need to wait until all the pages have been scanned.

With OKIFAX *4500's* ability to transmit and receive at 300dpi, combined with Oki's Smoothing Technology and 64 grey scales, you can be sure your incoming faxes are always business-quality documents. Just as important - OKIFAX *4500* uses Oki's own, unique Digital LED technology, which is highly reliable because it has fewer moving parts than laser machines.

Excellent paper handling

A paper capacity of 100 sheets as standard helps ensure your OKIFAX *4500* is always ready to print incoming faxes. Even if the paper tray is empty, you won't miss important communications because the generous 1 Mbyte memory can store up to 80 pages of incoming messages. You can also use the memory to store outgoing faxes for distribution to a large number of addresses, or for later transmission at off-peak rates.

The 20-sheet automatic document feeder also makes life easier by allowing you to send long faxes without constant supervision.

Upgradable for multiple functions

With a simple Multi-Function Product upgrade you can also use your OKIFAX *4500* as a true Multi-Function Peripheral. An optional 'Oki Multi-Interface Kit' opens the way to high-quality Digital LED printing at 8ppm with 600dpi output; 300dpi scanning; faxing direct from your PC; and document management with JetSuite Pro software.

Ideal for fast faxing from your desk or direct from home

OKIFAX *4500*

Environmentally sound

Like all Oki products, the OKIFAX *4500* has been designed from the start to be easy to use and robust in operation. Its neat, compact design takes up little desk space, making it the ideal solution when space is limited. Thanks to Oki's attention to detail and a power consumption of less than 0.5W in standby mode, this product is also able to carry the Energy Star EPA Pollution Preventer logo.

People to People Technology working for you

Oki creates products with the single aim of helping customers improve their communications easily, by using technology as a means not an end. OKIFAX *4500* is part of this philosophy, and puts high-quality communications within everyone's reach. In addition, it's backed by the extensive support and resources of a major international company.

OKIFAX *4500* highlights

- **High quality, Digital LED plain paper fax**
- **High speed 14.4k modem for 6 secs per page transmission**
- **Scanning and transmission resolution of 300dpi**
- **Scanning at 6 secs per page**
- **100-sheet paper capacity/20-sheet ADF**
- **Dual access**
- **1 Mbyte (about 80 pages) standard memory**
- **10 one-touch and 70 speed dials**
- **Instant Dial feature**
- **Upgradable to Multi-Function Peripheral**

OKIFAX *4500*

TECHNICAL FEATURES

Major Applications

The OKIFAX *4500* is a compact high quality desktop Digital LED plain paper fax that is ideal for small and home office applications. It offers a host of professional features that include rapid printing and transmission speeds, memory and dual access.

Ease of Use

- Speed dials - 10 one touch, 70 speed and 5 groups
- Automatic alternative dialling - program two numbers per one-touch key so that the second number is dialled automatically if the first is busy
- Message display - 2 line x 20 character
- Auto reduction - automatic from 100% to 75%

Paper Handling

- 100 sheet paper capacity
- 20 sheet automatic document feeder
- Document size - A4

Image Quality - Output, Scanning, Copying

- Oki Digital LED engine - superior quality and reliability
- 8 pages per minute print speed
- Print resolution - 300dpi
- Oki Smoothing Technology - with Q600 dpi resolution
- Scanning speed - 6 seconds per page at standard fax resolution of 300dpi
- 64 levels grey scale
- Multiple local copying - up to 50 copies at A4

Lower Running Costs

- 6 seconds transmission speed with 14.4k modem and MMR coding (low cost faxing)
- Idles on minimum power less than 0.5W in standby
- Low cost per copy - separate toner and drum units
- Toner - 1,875 pages, A4 (based on 4% coverage)
- Drum - 8,000 pages, A4 (based on 3 pages per job),
  - 10,000 pages (continuous printing)

Environmentally Friendly

- Virtually zero ozone emission
- Separate toner and drum means less waste
- <0.5W power consumption in standby
- No fan noise when idling
- All major plastic parts marked for recycling

Advanced Fax Features

- Dual access - printing and sending simultaneously reduces likelihood of queuing at machine
- Instant dialling - initiates connection immediately
- 1 Mbyte memory as standard (approx. 80 ITU No1 A4 pages)
- Broadcast and delayed broadcasting to up to 90 locations
- Relay broadcast initiate
- Delayed send - five transmissions within 3 days
- 8 confidential mailboxes (ITU Sub Address)
- Bulletin polling with 8 mailboxes (ITU Selective Polling)
- Error Correction Mode - ensures reliable transmission
- Closed network - direct mail rejection
- Page re-transmission - re-transmits any page which is distorted during transmission from memory
- Auto Tel/Fax switch - use as a fax or phone using optional handset
- TAD interface - for plug-in answerphone
- Out of paper/toner receive

Specifications

- Compatibility - G3
- 14.4k Modem - 6 secs/page transmission
- Coding scheme - MH/MR/MMR
- Telephone line - PSTN/PBX (direct line switchboard)
- Power - AC 198-264V (nominal 230V); 50/60Hz
- Dimensions - 316 x 383 x 190mm (W x D x H)
- Weight - approx. 8kgs
